

## IMPORTANT INFORMATION

- We are excited to announce the relocation of the Arts & Crafts (A&C) Fair. The new location, adjacent to the multi-million dollar RIVERWALK LANDING development, and directly on the new PARADE route, should offer increased customer traffic.
- Public restrooms are located directly across the street at each end of the A&C area and additional porta-potties will be located within close proximity.
- Although there are no trees in the new area (no shade), we believe you will find the area a much more enjoyable venue due to the riverside setting. We **highly recommend** you bring a canopy to provide shade.
- The A&C Fair is traditionally reserved for vendors offering merchandise made personally at home or in a small shop. It is not intended for the resale of commercially (factory) produced items. Please provide an accurate description of the items to be sold when completing the registration form.
- In consideration for the food and drink vendors at the event, no competing food or drink items shall be offered for sale or free distribution by the A&C vendors. You are welcome to bring food for your own personal consumption, however, within a very short distance from the A&C area, there are three restaurants, an ice cream/coffee shop and a sundries shop. Non-profit organizations will also operate concession stands at various locations within the village.
- This year we are requiring a NON-REFUNDABLE registration fee. In the past, due to the rules and regulations in the historic district, we were not allowed to require a fee. Moving to the new location allows us to again require a fee which, in turn, helps to offset the ever-increasing costs of the celebration.
- Once your registration is received, you will be sent specific instructions concerning your arrival time, setup, and parking location.
